Focus on intelligent charging operating system, electric vehicle charging pile, battery materials and battery monomer and other related products research and development, design and sales.

CellBlock Battery Storage Cabinets are a superior solution for the safe storage of lithium-ion batteries and devices containing them. Our practical, durable cabinets are manufactured from aluminum, and ...

Featuring 215kWh of LiFePO4 storage and a 120kW PCS, this system is engineered for industrial parks and commercial complexes that require high-power energy management.

Topband's mobile ESS leverages the "1-cell, 1-cloud, 3S" architecture (cell, cloud platform, BMS, PCS, EMS) to provide real-time monitoring, intelligent scheduling, and peak-valley ...

This system provides a 120kW sustained power output and a battery capacity of up to 225kWh, easily meeting the demands of most high-load applications like factories, commercial buildings, or large ...

Our 120kW/128kWh industrial and commercial energy storage system is now available for immediate sale. Featuring a long-life lithium iron phosphate core and 10ms ...

20-120kWh Scalable Battery Storage System for Energy Backup. This Battery Storage System provides reliable backup and solar storage. It supports energy needs from 20kWh up to 120kWh. Built with ...

Meet the 120kW mobile energy storage power station --the Swiss Army knife of modern energy solutions. With the global energy storage market hitting a staggering \$33 billion annually [1], these ...

With its high level of system integration, it offers easy installation and enhanced efficiency. The energy storage cabinet is equipped with multiple intelligent fire protection systems, ensuring optimal safety.

120kW Mobile Energy Storage Battery Cabinet for Fire Stations

Discover our high-efficiency, modular battery systems with zero capacity loss and rapid multi-cabinet response. Ideal for industrial, commercial, and emergency applications, our solutions offer remote ...
