Modular, solar-powered shipping-container systems for remote living and businesses. Complete off-grid power solutions built by licensed electricians at Danger Electric.

Each unit combines high-performance lithium batteries, hybrid inverters, and MPPT charge controllers in a single outdoor ready enclosure, allowing for fast installation, minimal site preparation, and simple ...

Each containerized Solarator(TM) BESS can be rapidly deployed in remote, regional, and urban environments within 30 minutes, and we offer redundancies to ensure an uninterrupted power supply.

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

SolaraBox Mobile Solar Container brings green energy wherever you need it. The integrated solar system delivers 400-670 kWh of energy daily. Thanks to foldable solar arrays, the container is ...

These rugged, self-contained systems integrate large solar arrays, advanced battery storage, and high-capacity fuel cells -- with optional diesel redundancy when regulatory or client requirements demand it.

High-efficiency Mobile Solar PV Container with foldable solar panels, advanced lithium battery storage (100-500kWh) and smart energy management. Ideal for remote areas, emergency rescue and ...

LZY Solar Containers use proprietary folding panel technology to maximize power generation while maintaining standard shipping dimensions. Our systems are faster to deploy, generate more power ...

Ideal for temporary power, remote locations, or emergency backup, these all-in-one solutions combine high-efficiency solar generation with integrated storage for rapid deployment in construction, events, ...

22V solar container outdoor power high power

Discover the world's leading foldable solar container with 40% higher energy density. Solarfold(TM) by Sunmaygo offers quick deployment & 70% lower costs than diesel.
