What are WEC rail rolling stock cabinets?

On-board the train there are many electrical systems which require housing capable of withstanding extreme conditions. WEC Rail rolling stock cabinets are designed to withstand and resist harsh conditions such as shock, vibration and temperature, thus protect the electronics they house.

Does WEC rail offer bespoke cabinets?

WEC Rail offers bespoke cabinets especially for mobile environments; the cabinet dimensions can be altered to cater for unique location difficulties, enabling the available space to be used to full effect. Products are available in a selection of colours, and are available on a short lead time basis.

What materials do bison profab rail enclosures & cabinets use?

Material selection. Bison ProFab rail enclosures and cabinets can be fabricated from aluminum, carbon steel, stainless steel, or galvanized steel, depending upon your application environmental requirements. For your peace of mind, our design and manufacturing professionals can help you select the material that best suits your needs and budget.

Can a train cabinet be fully wired?

These standard cabinets include an extensive range of hardware and can even be fully wired and terminated to suit customer requirements. On-board the train there are many electrical systems which require housing capable of withstanding extreme conditions.

Designed to support the energy demands of a fast-paced urban environment, this station provides a swift recharge for electric vehicles, ensuring that professionals are powered for their next journey.
