View our Product 335Wp 35V Monocrystalline PV panel en_AU. Solar Panels for Philips Solar Lighting..

335Wp 35V Monocrystalline PV panel A Range of Solar panels from 20 W to 325 W specially designed for Philips Solar Street lighting, Flood lighting and Solar Indoor Systems

The 35-Watt Solar Flex(TM) Module provides high-efficiency, monocrystalline power for outstanding performance solar power for off-grid applications.

19.1% Efficiency - Stable 35W output in low light. Weatherproof - Durable frame, -40°F to 176°F, wind & snow resistant. Easy Install - Pre-drilled, fits multiple mount types. Wide Use - Ideal for 12V ...

With advancements in photovoltaic technology, 35V solar modules offer reliable energy generation for a wide range of applications--from remote telecommunications to sustainable transportation and smart ...

The TPS-12-35W solar panels are high efficiency 36 cell designs with excellent low light performance. The polycrystalline silicon solar cells are laminated with a TPT (Tedlar/Polyester/Tedlar) and EVA ...

The BP 3170N is an advanced polycrystalline 170W solar module that incorporates anti-reflective coated cells and glass to generate more energy (more kWh per kWp) in your installation.

ACOPOWER 35W Polycrystalline Solar Panel is the key component to a system when going solar Off-Grid system. These panels are relatively compact and are a breeze to set up.

As the manufacturer of Philips lighting products, Signify is the new home of the Philips lighting catalog, alongside Dynalite and other Signify brands.

Find the perfect 35v solar panel application for your needs with our expertly curated selection, tailored to
