-----

Please be kindly advised that PV modules should be handled and installed by qualified people who have professional skills and please carefully read the safety and installation instructions before using our ...

590~615W Key Features TOPCon / Half-cut Better temperature coefficient (Pmpp) Non-destructive cutting

\* The additional gain from the back side depends on mounting (structure, height, tilt angle etc.) and albedo of the ground.

Values at Standard Test Conditions STC (Air Mass AM 1.5, Irradiance 1000 W/m<sup>2</sup>, Cell Temperature 25o C). Tolerance of power Current and Voltage (ISC,VOC)+3 - % Datasheet is subjected to change ...

615W~635W Key Features High Leading Efficiency module efficiency in industry, up to 22.7%

ELECTRICAL PARAMETERS AT STC ... t refer to a single module and they are not part of the offe ... \*For Nextracker installations, maximum static load please take compatibility approve letter between ...

With a peak power output of 615 W and an efficiency of 22.8%, this panel ensures high energy yield and excellent performance in various environmental conditions. The panel features 144 half-cut cells, ...

The Longi 615W Solar Panel (LR7-72HGD-615M) is a high-performance PV module designed for utility power plants. It features advanced HPDC cell technology, delivering superior module efficiency and ...

Excellent Anti-PID performance guarantee via optimized mass-production process and materials control. High salt mist and ammonia resistance. The N-type module with Hot 2.0 technology has better ...

Detailed profile including pictures, certification details and manufacturer PDF.
