ITM Solar APU System can save fuel, effectively eliminate jump starts, extend battery life, increase reliability and increase power available to offset parasitic loads.

Captures energy from the truck's alternator or solar panel and stores in lithium batteries. This energy is then converted into power for cooling, heating and electrification for sleeper cab. Easy to check and ...

With the state of the art technology and exceptional solar quality, combine your APU with solar. Approved by the U.S. Government to receive up to 30% Tax Credit.

The Solar Auxiliary Power Unit (APU) is intended to provide a supplemental source of power to charge 12 VDC or 24 VDC on-vehicle starter or auxiliary battery systems for commercial truck applications ...

8-Grounded-Outlet Power Hub with Swivel Safety Cover (UL Certified), Outdoor Use, Resettable 15A Circuit Breaker, 25FT Extension Cord with Locking Outlet (ETL Listed). Combo Pack.

Introducing our groundbreaking Solar APU/Truck Kit, the ultimate solution for harnessing the power of the sun to fuel your Auxiliary Power Unit (APU) and revolutionize your on-the-go energy needs.

DockPro2.4 Solarapu is a standalone solar unit that will handle up to 3kw. Most commonly used on lakehouse docks to power lights, boat lifts and jumping your dead battery.

HVAC & APU - Eliminate dead batteries with solar with customizable power systems that are easy to install and offer a great return on investment.

In 2025, we proudly launched our innovative Solar APU models, offering reliable and sustainable power solutions for various applications, from campers to lake house's.

These units provide climate control and power for computers and appliances to a sleeper cab when the truck is
