Who won a capacity market auction in Belgium?

Image: Tinne Van der Straeten via Twitter. New-build battery storage projects from three developers totalling 357MW were among resources awarded contracts in Belgium's latest capacity market auction. Belgian grid operator Elia announced the results of its Capacity Remuneration Mechanism (CRM) auction just before the end of October.

Is Giga storage planning a 300MW project in Belgium?

In September, Giga Storage, a BESS developer based in the Netherlands, announced that it is planning a 300MW/1,200MWh project in Belgium which would be connected directly to the transmission network via existing 380kV high-voltage transmission lines nearby. Read more coverage of the Belgian market on Energy-Storage.news.

Is CRM 'supercharging' a battery market in Belgium?

"We are indeed seeing that the CRM is 'supercharging' an already interesting battery market in Belgium.

Why is Belgium a good place to invest in a battery?

Other factors that make Belgium an appealing location for battery investments are the exemption of TSO grid fees and high revenues from balancing market (mainly FCR and aFRR)," Simon De Clercq, senior research associate at Aurora Energy Research, told ESS News.

The auctions form part of the amendments made to Belgium's power capacity mechanism approved on Tuesday by the European Commission. The amendments were proposed ...

Belgian capacity auctions catalyze 1.1 GW of battery Over the past four auction rounds, a total of 13 new large-scale BESS projects were selected, with ENGIE, Storm, and GIGA Storage securing the ...

This report analyses the cost of lithium-ion battery energy storage systems (BESS) within Europe's grid-scale energy storage segment, providing a 10-year price forecast by both ...

Elia publishes the auction rules -- including the derating factors, the price cap, and the volumes -- in Q1 of the auction year. These will determine exactly how interesting the auctions are ...

Belgian Energy Storage Cabinet 40kWh Bidding Price

The price stood at EUR25.1k/MW/year (below the IPC of EUR28.6k/MW/year). The latest procurements brings the cumulative contracted capacity for the 2027-2028 delivery period to 6,472 ...

Ongoing rule adjustments continue to favour storage, including exemptions from the "payback" mechanism. From 2025, DSR will be exempt from scarcity paybacks, with BESS to follow ...

New-build battery storage projects from three developers totalling 357MW awarded contracts in Belgium's latest capacity market auction.

Let's cut to the chase: battery energy storage cabinet costs in 2025 range from \$25,000 to \$200,000+ - but why the massive spread? Whether you're powering a factory or stabilizing a solar farm, ...

Strategic Positioning of Key Players GIGA Storage Belgium: GIGA Storage is constructing the Green Turtle battery park in Dilsen-Stokkem, a 700 MW / 2,800 MWh installation. Strategically located ...

Current projections indicate that utility-scale battery storage costs will continue to decrease by 8-10% annually through 2030, driven by increased production volumes and ongoing technological innovations.
