-----

To ensure the safety of "El Viaducto de la Paz" in 2018, 400 solar street lights were installed. In 2019, Fonroche Lighting wins a tender in Benin to equip the country with over 15,000 streetlights.

Over 4,400 solar streetlights set to boost safety and transform communities. Premier Energies has secured contracts worth \$19.95 million to supply and install solar systems in the ...

The Bright Lights for Benin project catalyses the Pay-As-You-Go (PAYG) solar market in Benin by linking Greenlight Planet PAYG products with a ready-made solar supply chain. The project builds on ...

The challenge for Benin's government is to harness the sun to supply electricity to the population. It aims to achieve solar energy capacity of up to 100 MW.

The development of these four utility-scale solar plants marks a significant step toward a sustainable energy future for Benin. As more details about these projects become available, we will ...

For this project, we brought together one of the leading producers of solar lighting products, Greenlight Planet, and a Beninese solar import-supplier, ARESS, to introduce these ...

Leveraging its technical expertise in solar lighting, Inlux Solar customized 39 sets of AIT5 solar street light systems to meet local needs, providing reliable illumination support: each AIT5 ...

By adding 50 MW of solar generation capacity, the project will help address electricity shortages while contributing to climate goals and reducing reliance on imported energy. The four ...

Together, the FORSUN, TTC and DEFISOL plants will strengthen Benin's energy capacity, enough to supply electricity to thousands of homes, the Benin government said in a statement.

In Benin, we have introduced a smart street lighting project featuring modular solar streetlights. This
