Inspired by the heat-resistant properties of conch shells, researchers have engineered cement composites that absorb and release thermal energy. In 2023, a pilot project in Mumbai used this tech ...

On March 7, Conch Cement, the second largest cement manufacturer in the world, announced that the company would invest 5 billion yuan in the development of new energy businesses such as ...

At present, Conch Cement has signed a contract for the Fengyang Photovoltaic Industrial Park project, and the planned investment projects include quartzite mining and deep processing, ...

(Yicai Global) March 9 -- Anhui Conch Cement plans to spend CNY5 billion (USD791.4 million) this year to build renewable energy power plants at its factories in order to meet the country's carbon peaking ...

Developed and financed by Tongliao Conch New Energy Co., Ltd., a subsidiary of China's largest cement manufacturer the Conch Cement Group, the project - located in Naiman Banner, ...

In 2023, Conch will further accelerate the integrated development of wind, solar and water storage in the new energy industry, actively extend to the upstream industry, and steadily lay out ...

CATL only adopts LFP cells as energy storage cells for its energy storage systems. From material chemistry selection to developing the well management system control, from the cell to system level, ...

The Zhangjiagang Conch Cement Energy Storage Project has adopted a modular container design. It consists of 16 groups of containers with an average capacity of 0.5 MW/2 MWh ...

Utilizes the low-grade waste heat from cement production (50°C+) combined with large-scale energy storage, significantly reducing carbon emissions. Couple CO₂ captured from Conch Cement's CCUS ...
