This will open opportunities for shared solar, microgrids, and collective energy storage--areas where Canadian companies can provide design, engineering, and turnkey systems.

At AVOLTA Energy, we have a multidisciplinary technical team specialized in the design, implementation, and management of high-level photovoltaic solutions -- including solar microgrids.

A microgrid project located on an industrial equipment retail facility in San Jose will be utilizing CleanSpark, Inc.'s mPulse controller to coordinate all aspects of the system and improve ...

Solar microgrids provide a continuous energy source, reducing the risk of power supply interruptions. This is especially crucial in areas with less developed electrical infrastructure.

A hybrid energy system at a manufacturing facility not only helps reduce energy costs and emissions, but also has far-reaching carbon reduction benefits, and positions Costa Rica as a ...

In an era defined by climate change and the urgent need to transition from fossil fuels, Costa Rica stands as a beacon of hope. This small Central American nation has achieved a ...

Establishment Labs, S.A. has commissioned a solar-plus-storage microgrid at their medical manufacturing plant in Costa Rica, with a ribbon-cutting ceremony led by Costa Rican ...

CPG Hospitality and Enjoy Group, owners of Costa Rica Marriott Hacienda Belén, today announced the hotel is installing a microgrid controlled, optimized, and managed by Heila Technologies, ...

INTRODUCTION "Decarbonization is the great challenge of our generation and Costa Rica must be among the first countries to achieve it, if not the first."
