---

The global lithium-ion battery energy storage market size was valued at USD 24.80 billion in 2024. It is projected to be worth USD 32.37 billion in 2025 and expected to reach USD 113.64 ...

This report provides a detailed analysis of the U.S. energy storage lithium battery market in 2025, focusing on residential, commercial and industrial (CCI), utility-scale, and outdoor (RV and ...

The global energy storage lithium-ion battery market is undergoing rapid expansion, driven by energy transition, policy support, technological advancements, and cost reductions, with ...

The energy storage lithium-ion battery market is experiencing rapid growth, driven by increasing demand for renewable energy solutions and electric vehicles. Market concentration is ...

The lithium-ion battery market is expected to grow significantly over the next decade, fueled by increasing adoption of electric vehicles, rising demand for renewable energy integration, and greater ...

The lithium-ion battery market size crossed USD 75.2 billion in 2024 and is expected to grow at a CAGR of 15.8% from 2025 to 2034, driven by the shift to green energy and rising use in EVs and renewable ...

In 2025, US energy storage sector experienced a turbulent ride as the Trump administration took significant action to roll back and eliminate key clean energy investment ...

The lithium-ion battery market is growing at a global CAGR of 15.8% from 2025 to 2035, driven by rising demand for electric vehicles, renewable energy storage, and consumer electronics.

Lithium in 2025: A tale of two markets The lithium market's 2025 performance can be divided into two halves, according to RK Equity co-founder and partner Howard Klein.

The market trends of lithium-ion batteries are dynamic and reflective of the evolving landscape of energy storage technologies. Lithium-ion batteries have experienced substantial ...
