Who makes Rs circuit breaker accessories?

RS is a globally recognised and trusted supplier, distributor, and manufacturer of industrial circuit breakers and circuit breaker accessories. In addition to our own RS PRO line, we carry a wide range of types from top brands, such as MCCBs from Siemens, MCBs from Schneider Electric and even electronic circuit breakers from ABB.

What types of circuit breakers are used in Australia?

C curve breakers are the most common type used in Australian installations. D-Curve Circuit Breakers: D-curve breakers are designed to handle high inrush currents and trip when the current reaches 10-20 times the rated current. They are often used for highly inductive loads, such as transformers or motors with significant startup current.

What are the different types of circuit breakers?

Single-phase, double-phase, and three-phase circuit breakers play vital roles in protecting electrical circuits. Single pole circuit breakers, commonly known as 1 pole breakers, are often used in residential, commercial and industrial applications.
