It features high production speed, intelligent PLC control, and extreme flexibility to produce various profiles. The entire line requires only one operator, significantly reducing labor costs.

Zhongtuo's solar bracket machine offers a fully automated, high-speed, and precision-driven manufacturing line tailored for the mass production of photovoltaic mounting structures.

It adopts computer-aided structural drawing and fully automatic all-in-one machine operation. It is mostly used in the construction of solar power stations for individual residences, factories, and government ...

The Putai Automatic Solar Panel Mounting Strut Making Machinery provides a perfect synthesis of precision, automation, and versatility needed for high-quality PV bracket production.

The fabrication process of photovoltaic brackets follows a precision-engineered workflow on the production line, encompassing decoiling, flattening, precision punching, roll forming, and cut-to ...

To improve production efficiency, our Solar/PV modules production line is equipped with intelligent MES and defects detection systems: EL-VI, Hi-Pot, IV, Calibration, and other testers. Equipment is made ...

ConfirmWare provides state-of-the-art and fully-automated production line solutions, scaled to fit any production with minimal human supervision. Seamless integration of each section assures smooth ...

Once completed, the Anhui Mokun's 8GW photovoltaic intelligent tracking bracket project will not only create an industrial entity with a scale of 3 billion RMB but also provide perfect support for building a ...

Our fully automated production line is responsible for building each bespoke PV panel on a turnkey basis, automating the entire process from scribing, welding, laying to labelling.

Fully intelligent photovoltaic bracket production line

Watch the full commissioning of Zhongtuo's fully automatic Solar PV Bracket Production Line exported to the USA. From double-head decoiling to auto stacking and packing, the entire line...
