-----  
Where are Georgia Power's new battery energy storage systems located?

Georgia Power announced today that construction is underway on 765-megawatts (MW) of new battery energy storage systems (BESS) strategically located across Georgia in Bibb, Lowndes, Floyd and Cherokee counties.

How many MW of new battery energy storage will be available?

An additional 1,000 MW of new battery energy storage is expected to be procured in the coming years through competitive bidding processes and a 13 MW demonstration project is in development at Fort Stewart Army Installation near Savannah, Georgia.

Does Georgia Power support Customer-Sited solar?

Georgia Power is also committed to supporting customer-sited generation resources to meet the state's growing energy needs. The 2025 IRP includes two customer expansions of BESS programs including enhancements to the Customer Connected Solar Program and launching a new Customer-Sited Solar Plus Storage Pilot.

How does Georgia Power work with the Georgia PSC?

Georgia Power continues to work with the Georgia PSC to procure and develop BESS projects across Georgia.

Georgia Power is investing in battery energy storage systems to meet the state's growing demand for energy. These systems are designed to store excess renewable energy when demand is ...

Explore Georgia's top 21 energy storage companies offering innovative solutions like battery storage and power systems. Featuring Stryten Energy and Hannah Solar.

Georgia Power announced today that construction is underway on 765-megawatts (MW) of new battery energy storage systems (BESS) strategically located across Georgia in Bibb, ...

Storage systems can improve the efficiency of renewable energy by storing excess energy produced during periods when the demand for electricity is lower, for use when the demand is ...

# Georgia Valley Power Energy Storage Equipment

Georgia Power has commenced construction on 765 megawatts (MW) of new battery energy storage systems (BESS) across four counties in Georgia, aiming to significantly enhance grid ...

Georgia Power has begun construction on a 200 MW battery energy storage system (BESS) near its Twiggs County Solar facility, with completion scheduled for 2027. The Twiggs BESS ...

Georgia Power has been progressively expanding its battery energy storage portfolio as part of its Integrated Resource Plan (IRP) updates, approved by the Georgia Public Service Commission ...

Georgia Power recently announced that construction is underway for four new battery energy storage systems in strategic counties across the state to support energy capacity needs.

Georgia Power has inaugurated the first battery energy storage system (BESS) project the US utility company has built to own and operate. A ceremony was held last week (7 November) ...
