Georgia Power is tendering for 500 MW of energy storage project capacity with the aim of bringing the sites online before 2032. The energy storage can be standalone or with a new or ...

Projects Weekly kicks off with an construction initiative from Georgia Power to build 765 MW of new energy storage facilities. Also included are two other storage projects from Leeward ...

Georgia Power has requested certification from the Georgia Public Service Commission (PSC) for 9,900MW of new generation resources, including more than 3GW of battery storage that ...

Georgia Power announced today that construction is underway on 765-megawatts (MW) of new battery energy storage systems (BESS) strategically located across Georgia in Bibb, ...

Georgia Power has requested certification from state energy regulators for 9,900 megawatts of new energy resources, including power-purchase agreements, natural gas generation, ...

Georgia is rapidly emerging as a hub for renewable energy innovation, with photovoltaic (PV) energy storage projects leading the charge. This article explores the latest developments, key players, and ...

The Georgia PSC has approved five new PPAs under Georgia Power's CARES 2023 program, totaling 1,068 MW of solar capacity, with one project also including battery storage.

Atlanta-based Georgia Power has filed a request with the Georgia Public Service Commission seeking certification for two new solar-plus-storage projects totaling 350MW.

In this article, we will explore the specifics of these battery storage projects, their anticipated benefits, and Georgia Power's broader commitment to sustainable energy solutions.
