With our team working on-site around the clock, focused on meeting international quality standards and the arrival of the BESS, the project moves one step closer to completion, ensuring ...

The Gas-to-Energy project, originally scheduled for completion by the end of 2024, has been delayed. Prime Minister Mark Phillips said in May that the facility is now expected to be ...

The government is pouring tens of billions of dollars into Guyana's electricity system in 2026, signalling its most aggressive push yet to stabilise the national grid, expand generation and ...

You know, when we talk about renewable energy transitions, industrial parks rarely grab headlines--but they should. The Guyana Industrial Park Energy Storage Project isn't just another battery installation.

From flood-resistant battery racks to smart energy management software, Guyana's emergency power infrastructure is entering a new era. The right storage solutions don't just keep lights on - they keep ...

As Guyana positions itself as a Caribbean energy leader, this EPC project demonstrates how electrochemical storage can transform national grids while supporting sustainable development goals.

As a key component of Guyana's landmark Gas-to-Energy (GtE) initiative, the BESS will enhance the project's efficiency and reliability; helping to stabilize the national grid, reduce carbon ...

The convergence of these initiatives--powership deployment and GTE construction--reflects both the urgency and complexity of Guyana's energy transition. It also ...

The Wales Gas-to-Energy (GtE) project contractor, LNDCH4 Guyana, has announced the arrival of the Backup Battery Storage System (BESS) which it says forms a critical part of the power ...

More than 100 miles offshore Guyana, three of the world's largest, best-in-class floating production storage

Guyana energy storage for load shifting

and offloading (FPSO) vessels - the Liza Unity, the Liza Destiny and Prosperity - ...
