How can importers save a lot of money?

Importers that buy products from several suppliers, perhaps in different cities across China, can therefore save a lot of money, by coordinating all these LCL shipments, into one or more FCL shipments. This can be achieved, if you coordinate your suppliers to ship to the same Port of Loading (i.e., forwarder warehouse) in China.

How much does air freight cost?

Below follows an overview: 1. Single entry: \$100 - \$200 2. Continuous: \$250 - \$450. Feel free to ask a free quote. 1. Ship by Sea: Air freight is faster, but several times more expensive than shipping by sea. As such, plan ahead to avoid situations where you are forced to urgently ship cargo by air freight. 2. Ship FCL

How much does it cost to ship from China?

However, there is a base cost, that is often set at around \$30 per delivery - regardless of weight and volume. Hence, even small deliveries (i.e., a few A4 pages or a small material sample) are rather costly to send from China. Larger air deliveries are rarely cost-efficient.
