Ethio Telecom and Huawei deploy Africa's first Solar-on-Tower solution in Addis Ababa.

China-headquartered Huawei and Ethio Telecom have completed Africa's first Solar-on-Tower deployment in Addis Ababa. The solution has integrated photovoltaic panels on telecom ...

In Addis Ababa, thousands of telecom sites face land and space limitations, making it difficult to adopt conventional solar technologies. The Solar-on-Tower initiative provides an efficient ...

Ethiopia's leading operator, Ethio Telecom, in collaboration with Huawei, has announced the successful commercial deployment and stable operation of the first batch of Solar-on-Tower solution in Africa.

Ethiopia Today (Addis Ababa), August 29, 2025: Chinese telecom vendor Huawei has partnered with Ethio Telecom to deploy solar panels at some of Ethio's tower sites.

The innovation integrates photovoltaic panels directly onto telecom towers, addressing land and space constraints in urban areas like Addis Ababa. Ethio Telecom reported that the first ...

Thousands of sites in Ethiopia's capital, Addis Ababa, are facing space constraints, making it impossible to adopt more energy-efficient technology such as traditional ground-based ...

With 65% of its population lacking reliable electricity access, this project combines cutting-edge battery storage systems with solar farms to stabilize the national grid.

Huawei says the purpose of its solar-on-tower site is to address the issue of land constraints in Addis Ababa. The issue of space is making it difficult for telcos such as Ethio to adopt ...
