-----  
What is IEEE Transactions on power systems?

The mission of the IEEE Transactions on Power Systems is to serve the whole Power System community, including researchers, practitioners, educators and students, by publishing and disseminating insightful research results of lasting value.

What happens if a paper is accepted in the IEEE Transactions?

All accepted papers will be published and permanently referenced in the IEEE Transactions on Power Systems, Power Delivery, Energy Conversion, Smart Grid, Sustainable Energy, or Energy Markets, Policy and Regulation with available discussions and closure also printed in an issue of the Transactions.

Who is the editor-in-chief of IEEE Transactions on power systems?

Editorial Board of IEEE Transactions on Power Systems Editor in Chief: Ian Hiskens University of Michigan, Ann Arbor, USA [hiskens@umich.edu](mailto:hiskens@umich.edu) // Power Engineering Letters Editor-in-Chief: Rabih Jabr American University of Beirut, Lebanon [rabih.jabr@aub.edu.lb](mailto:rabih.jabr@aub.edu.lb) // Nikos Hatziargyriou National Technical University of Athens, Greece

How are IEEE Transactions on smart grid distributed?

The Transactions are distributed through the IEEE All Society Periodicals Package and individual nonmember sales to major libraries worldwide. The technical areas covered by each of the PES Transactions are enumerated below. The following topic areas are NOT within the scope of the IEEE Transactions on Smart Grid:

The scope of IEEE Transactions on Power Systems covers the education, analysis, operation, planning, and economics of electric generation, transmission, and distribution systems for general industrial, ...

A public charity, IEEE is the world's largest technical professional organization dedicated to advancing technology for the benefit of humanity. © Copyright 2025 IEEE - All rights reserved, including rights ...

All accepted papers will be published and permanently referenced in the IEEE Transactions on Power Systems, Power Delivery, Energy Conversion, Smart Grid, Sustainable Energy, or Energy Markets, ...

IEEE Transactions on Power Systems covers the education, analysis, operation, planning & economics of

# IEEE transactions on power systems

electric generation, transmission, and their distribution systems.

IEEE Power & Energy Society produces leading material for distributing the latest power and energy industry knowledge through the following publications: magazines, IEEE PES Transactions, PES ...

Click on the volume/year and the corresponding issue you wish to view. Need Help? A public charity, IEEE is the world's largest technical professional organization dedicated to advancing technology for ...

These instructions give guidelines for preparing papers for this publication. Presents information for authors publishing in this journal. Need Help? A public charity, IEEE is the world's largest technical ...

Learn about the scope, editorial philosophy, and submission process of IEEE Transactions on Power Systems (TPWRS), a journal for power engineering research and education. Meet the editorial board ...
