Budget 2026 Supercharges Solar, Storage, Nuclear, But Skips EV Fast Lane Finance Minister, presenting the Union Budget on Thursday, painted a picture of sustainable growth woven ...

Grid Scale Energy Storage: The Union Budget 2026-27 introduces exemptions on capital goods for lithium-ion battery manufacturing and sodium antimonate for solar glass, aiming to boost ...

Policy incentives and hybrid solar-plus-storage projects are accelerating India's energy storage sector despite a slowdown in first-half installations.

From being heavily dependent on fossil fuels, India is now embracing a future powered by renewable energy, innovation, and policy reforms. The push for solar, wind, and hydrogen energy, alongside ...

The report, Strategic Pathways for Energy Storage in India Through 2032, tackles these questions. With its sharp analysis and data-driven approach, it maps out practical, affordable ways to roll out storage, ...

By enabling peak shaving, frequency regulation, and dispatchable clean energy, storage transforms solar from a variable resource into a reliable backbone of India's grid.

Last year, 2025, marked several milestone developments for India's renewable energy sector. These included the entry of select new solar and BESS-linked companies into the stock ...

In every conversation -- from Delhi's smart grid pilots to Ladakh's gigawatt-scale solar park -- Battery Energy Storage Systems (BESS) have emerged as the backbone of India's next ...

India's solar and energy storage sector enters 2026 with unprecedented momentum. This in-depth SolSetu analysis explores policy shifts, project execution realities, financing trends, and ...

Solar Power* (Cumulative) : 135.81 GW Ground Mounted Solar Plant : 103.24 GW Grid Connected Solar

India s energy storage solar

Rooftop: 23.62 GW Hybrid Projects (Solar Component) : 3.36 GW Off-Grid Solar: ...
