-----

With a portfolio of more than 11.5 GWp utility scale solar projects in India, Tata Power Solar possesses extensive experience and expertise in setting up utility-scale land based solar power plants for ...

Renewable Watch presents an overview of India's utility-scale solar market, encompassing ground-mounted solar projects, floating solar, solar parks and solar-storage projects.

Amid myriad policy and project execution issues, India's utility-scale solar park model has firmly stood its ground. India now houses multiple ultra-mega solar parks with capacity of more than 1GW, and two ...

Utility-scale solar India 2025 reduces reliance on fossil fuels, offering economies of scale that lower energy costs. With 84.1 GW under implementation as of January 2025, India is a global ...

India's utility-scale solar additions rose 55% to 28.6 GW in 2025 as record solar and wind installations, open access demand and faster execution boosted renewables.

Solar additions in calendar year 2025 comprised 28.6 GW of new utility-scale solar capacity, 7.9 GW of rooftop PV power, and 1.35 GW of off-grid and distributed installations.

The Union Budget 2026 places clean energy, especially solar power, firmly at the centre of India's growth and energy transition strategy. With a clear focus on scale, affordability, manufacturing ...

On the utility-scale front, India had commissioned 85.5GW of solar PV as of the end of March 2025, with a further 68.2GW in the pipeline. By state, Rajasthan, in western India, continues...

India added around 17.4 GW of utility-scale solar and 5.15 GW of rooftop solar capacity in FY 2025, according to JMK Research & Analytics' Annual India Solar Report Card FY 2025. ...

Rajasthan, Gujarat, Tamil Nadu, Maharashtra and Madhya Pradesh are among the top-performing states,

## India utility-scale solar

contributing significantly to India's total utility-scale solar installations.
