What is Vivint Solar?

Vivint Solar is a company that focuses primarily on solar energy for houses and residential buildings and designs, installs, and maintains photovoltaic systems and panels. It was born as an incorporation to the home automation company Vivint, and after roughly a year, it became a separate, yet related, company.

Where are Vivint Solar panels made?

With Vivint's headquarters being in Lehi, Utah, they started offering solar panels in addition to the home solar system. Over time this started to expand, and eventually, Vivint went on to offer solar power systems in 21 states. Sunrun purchased the company in July 2020.

Does Vivint Solar offer a smart home system?

The main solar service from Vivint includes an entire smart home system, truly setting it apart from the rest of the competitors on the market. The Vivint Solar customer gets much more than a few panels installed on their roof.

How many states does Vivint offer solar power?

Over time this started to expand, and eventually, Vivint went on to offer solar power systems in 21 states. Sunrun purchased the company in July 2020. With Sunrun being a massive solar company, there will likely be some changes and improvements to the Vivint process through the next few years.
