Do I need a power plug adapter in Mexico?

Since Mexico uses the same power plugs as the U.S., Canada and most of North America, a travel power plug adapter isn't necessary for those travelers. However, when coming from a country with different plug types, you will need an adapter or else you can't physically plug your devices in.

What power plug & outlets do you need to travel to Mexico?

When planning a trip to Mexico, you need to know about Mexican power plug and outlets. When traveling to Mexico, it's important to know that the standard voltage supply is 127V, with a frequency of 60Hz. This is similar to the United States and Canada, which also both use 120V and 60Hz.

Do you need a universal travel adapter for Mexico?

For those traveling to Mexico, a universal travel adapter is a must-have. Great for worldwide travel, these adapters shine due to their versatility. Using them, you can connect devices in more than 150 countries, not just Mexico.

Can a type B plug be used in Mexico?

Type B plugs can only be used with Type B outlets. This makes it a bit more difficult for you to find and use compatible electrical outlets in Mexico. If you have a Type B plug on the devices you're packing for Mexico, I recommend bringing this Type B to Type A US to Mexico Power Adapter.

We have specialized technicians throughout Mexico so it can attend to extensive installation programs maintaining a homogeneous quality guaranteeing the satisfaction of its customers.
