Where can I get free shipping on solar inverters?

Get free shipping on qualified Solar Inverters products or Buy Online Pick Up in Store today in the Electrical Department.

How much power does a solar inverter use?

The power of such an inverter can reach up to 8000 Watts. To determine the size of the required inverter, you need to calculate the total load of all devices in the power supply grid. To do this, measure the power of each device for 1 hour and summarize the obtained result. Hybrid inverters are most effective for solar systems.

What type of Inverter should I buy?

This equipment is ideal for installation in residential areas, is highly efficient, reliable and durable. Inverters with single-phase and three-phase alternation current output of 220 and 380 V are readily available in our online store. Three-phase models can be used in homes or industrial sites.
