Home office. Campervan. Worksite. Portable power for broadband backup, road trips, and running gear on the go.

Check eco-friendly portable power stations and generators for events, film production, and festivals. Built for Irish conditions.

This would increase Ireland's energy storage capacity almost eightfold - enough to power every home in Ireland twice over on a still, cloudy day. Last year, 14% of all wind energy generated in ...

In the absence of renewable storage options, gas-turbines currently supply most of Ireland's dispatchable power generation capacity, though the lack of gas storage facilities on the island is a ...

While the renewable energy industry urged the Government and grid operator to be more ambitious with the procurement mechanism to reach the original 500 MW target by 2030, policy on ...

We currently have more than 300MWs of battery storage capacity in operation in Ireland, making it one of the largest battery portfolios in Europe. We plan to develop a pipeline of large scale battery ...

Our containerised energy storage solutions are available as 10ft and 20ft high cubes and stand almost 3m tall, they can be deployed all over Ireland and further afield (we have a footprint in ...

Energy Storage Ireland urges EirGrid to deliver Ireland's 500 MW storage target by 2030, boosting renewable energy, lowering electricity costs, and improving energy security.

Ireland's energy storage could increase eightfold by 2035, according to a new report by Energy Storage Ireland. It states that battery storage has the potential to provide secure,...

While Ireland currently relies primarily on battery storage and the Turlough Hill Power Station in County
