Italy's environment and energy ministry has approved six utility-scale battery storage projects in Lazio, Campania, Basilicata and Puglia.

Whether you're a solar developer, grid operator, or sustainability enthusiast, Italy's blueprint offers actionable insights into policy-driven growth and technological leaps....

Italy's installed storage fleet grew 23% by system count over the past year, but jumped 52% in capacity and 40% in power, according to new data highlighted by Italia Solare. Italy now ...

The Italian utility-scale battery storage market is one of the most exciting in Europe. Just under 4GWh is completed and/or operational, with a further 2GWh+ under construction.

Zelestra Italy develops photovoltaic, agrivoltaic, and battery energy storage (BESS) projects across six Italian regions, spanning the islands, southern, and central-northern areas, with a total pipeline ...

On September 18, 2025, Sungrow, the global leading PV inverter and energy storage system provider, announced the signing of a supply agreement with Italian electricity generation company EP ...

EP Produzione and Sungrow have signed an agreement to build a large-scale battery energy storage system (BESS) in Trapani, Sicily, using Sungrow's PowerTitan 2.0 product.

These auctions are designed to enhance system flexibility and promote the decarbonisation of Italy's power sector. The two additional auctions aim to achieve 70GWh of operational capacity by...

Italy awarded all 10 gigawatt hours of the capacity it tendered in its first battery storage auction, recording an average price well below the cap set by the regulator, the CEO of grid...

Italy broke new ground in energy storage with its very first battery storage auction, competitively awarding the

Italian power storage project

full 10 gigawatt hours (GWh) of capacity put up for tender. One standout ...
