The Vietnam Solar Energy market reached approximately 26.22 TWh in 2025. The market is projected to grow at a CAGR of 3.10% between 2026 and 2035, reaching a volume of around 35.58 TWh by ...

Looking forward, IMARC Group expects the market to reach 2.5 Gigawatt by 2034, exhibiting a growth rate (CAGR) of 7.48% during 2026-2034.

As outlined in the latest report, the market experienced a substantial rise, reaching 1.2 Gigawatts in 2024, with projections indicating it will double to 2.4 Gigawatts by 2033. This represents ...

The Vietnam Solar PV Panels Market is witnessing significant momentum due to a convergence of policy support, renewable energy targets, and escalating electricity demand.

Falling battery prices, currently USD 120-140 per kWh in 2024 and trending toward USD 80-100 by 2028, will render off-grid solar cheaper than new grid miles beyond 15 km, thereby ...

Explore 2025 solar panel prices, technology trends, and ROI insights. Make smart, cost-effective investment decisions for your solar energy system in Vietnam.

The year 2025 marks an important transition as Vietnam shifts from the FIT price mechanism to competitive bidding for solar power projects. This not only creates a more transparent ...

Explore the solar energy costs in Vietnam for 2025 with pricing frameworks and policy trends enhancing efficiency.

Looking forward, IMARC Group expects the market to reach 2.4 Gigawatt by 2033, exhibiting a growth rate (CAGR) of 7.87% during 2025-2033.

Latest price trend of photovoltaic panels in Vietnam

IRENA's latest report finds that energy use and material intensity across the solar PV manufacturing supply chain will decline through 2030. The analysis also shows Vietnam remains ...
