Jiangxi Yushui Liangshan SPIC solar farm is an operating solar photovoltaic (PV) farm in Liangshan Town, Yushui District, Xinyu, Jiangxi, China.

This study introduces a novel framework for identifying optimal sites for PV plants within China's spatial planning. Through two screening stages and three decision-making processes validated in ...

The project is a key project in Sichuan Province in 2023, and it is also the first large-scale ground-based centralized photovoltaic project developed by Shudao Group after entering the field of ...

On January 12th, 2025, the Sichuan Huadian Liangshan Xichang Donghe 100MW Photovoltaic Project, constructed by PowerChina Kunming, was officially put into operation and began generating electricity.

Optimizing solar photovoltaic plant siting in Liangshan Prefecture, China: A policy-integrated, multi-criteria spatial planning framework

Government subsidies (GSs) have triggered a remarkable increase in the production capacity of photovoltaic (PV) electricity in China. However, the lack of core ...

This paper proposes a model called X-LSTM-EO, which integrates explainable artificial intelligence (XAI), long short-term memory (LSTM), and equilibrium optimizer (EO) to reliably forecast solar ...

On January 31, 2023, the People's Government of Liangshan Prefecture, Sichuan issued a notice on the '14th Five-Year Plan for Energy Development in Liangshan Prefecture'.

In this study, we developed an integrated technical, economic, and grid-compatible solar resource assessment model to analyze the spatial distribution and temporal evolution of the cost ...
