-----

This project assesses the optimal mix of electricity storage technologies in the UK from 2030 onwards under various scenarios. Using GAMS and data from ENTSO-E and NESO, it assesses multiple ...

The project is on National Grid land adjacent to its 275kV Warley substation. It will connect directly to the London electricity distribution circuit and serve to balance supply and demand in London.

Ofgem is today (Tuesday 23 September) confirming the 77 projects entering the final assessment stage of a government-driven "super battery" support scheme designed to secure investment, promote ...

Ofgem has shortlisted 77 projects for the next stage of a government-backed long duration electricity storage (LDES) funding mechanism that aims to expand Britain's ability to store ...

Welcome to London's energy storage revolution - where megawatts meet marmalade sandwiches in the most British way possible. The London energy storage case isn't just about ...

London, 19 February 2024: Global energy storage developer Eku Energy has broken ground at two new UK battery storage projects in Basildon, Essex and Loudwater, Buckinghamshire, together ...

The DP World London Gateway - Battery Energy Storage System is a 320,000kW lithium-ion battery energy storage project located in Thurrock, Essex, England, the UK.

LONDON: EnergyPathways (AIM: EPP), an energy transition company, has announced significant progress on its MESH energy storage project, aligning with the UK government's ...

Industrial Power Response develops energy storage systems for intensive applications. Its proprietary energy storage technology is designed for electrifying industrial equipment and the needs ...
