New Yorkers are lining up in opposition to dozens of new lithium-ion battery storage facilities planned across the Big Apple and beyond, over fears they could spark toxic infernos in...

Main Considerations for Safe Installation and Incident Response Battery Energy Storage Systems Overview
Battery energy storage systems (BESS) stabilize the electrical grid, ensuring a steady flow ...

The total volume of batteries used in the energy sector was over 2 400 gigawatt-hours (GWh) in 2023, a fourfold increase from 2020. In the past five years, over 2 000 GWh of lithium-ion battery capacity ...

A Brooklyn-based community-scale energy storage developer has secured sufficient funding to purchase almost 100 MW/400 MWh of BESS for its projects in the NYC metropolitan area.

It's 7:30 PM in Metroville. Lights flicker as millions simultaneously microwave dinner while charging EVs. Suddenly - darkness. Now imagine instead: seamless power flow from the metro super energy ...

FDNY officials and environmental advocates insisted Tuesday that New York City's rigorous review system makes lithium-ion battery storage facilities safe enough to live next to during ...

Richard Ellenbogen This post was put together by Roger Caiazza to describe a recently completed white paper by Richard Ellenbogen M.E.E. titled The Intrinsic Danger of Siting Utility ...

Brooklyn Paper recently toured MGN's 5MW / 20MWh energy storage facility on Grand Street in Williamsburg to get a closer look at how the first-of-its-kind site helps ease the burden on ...

Ever wonder how metro systems handle those insane power demands during rush hour? Let's face it - today's urban transit networks need energy solutions smarter than your average power bank. That's ...

One of the country's largest battery energy storage sites is about to be built on Staten Island. It's part of New

Metro lithium battery energy storage

York's push for renewable energy. But families there say by the time they...
