We use standard chassis and containers that can flexibly match system energy according to customer needs. Our products cover energy storage systems, thermal management systems, fire protection ...

Polinovel 2MWH commercial energy storage system (ESS) is tailored for high-capacity power storage, ideal for large-scale renewable energy generation, PV self-consumption, off-grid applications, peak ...

A high-performance, all-in-one, containerized battery energy storage system developed by Mate Solar, provides C& I users with the intelligent and reliable solution to optimize energy efficiency and resilience.

Adding Containerized Battery Energy Storage System (BESS) to solar, wind, EV charger, and other renewable energy applications can reduce energy costs, minimize carbon footprint, and increase ...

With a large capacity of 2 MWh, this vehicle offers ample storage to meet the demands of various industries. Equipped with six new energy vehicle charging guns, it allows for fast charging ...

This commercial energy storage system integrates lithium batteries, PCS, ...

This commercial energy storage system integrates lithium batteries, PCS, transformer, air conditioning system, and fire protection system within a single container, offering a comprehensive plug-and-play ...

Whether you're integrating renewable energy sources, stabilizing grid operations, or managing industrial energy consumption, our energy storage containers provide the reliable, scalable solution you need.

Adopting 40-foot non-walk-in container design, the highly integrated and modular energy storage unit inside the container is convenient for transportation, installation and maintenance.

HighJoule's scalable, high-efficiency 2MWh energy storage system provides reliable, cost-effective solutions for commercial, industrial, and utility-scale applications.
