Modular waterproof energy storage cabinet for USA network server room

MODULAR definition: 1. consisting of separate parts that, when combined, form a complete whole: 2. consisting of.... Learn more.

Constructing a modular home involves creating building modules in a controlled factory environment. (Traditional homes, meanwhile, are built entirely at the construction site.)

Simply put, modular homes have sections that are built in a factory, rather than being fully built on a home site. These parts are then transported to the site and assembled by a builder.
