Myanmar's military leadership has vowed to crack down on cyberscam centers, starting with the notorious KK Park. They raided and bombed the compound, but questions remain about the ...

(Reuters) -When Thailand cut power supply to Myanmar across its western border this year, it intended to curb online scam centres linked to regional networks trafficking hundreds of thousands...

Drawing on interviews and a survey of 302 respondents in Myanmar and Thailand, it maps the scams permeating daily life: fake banking calls, fraudulent borrowing schemes, and ...

Human trafficking and scam compounds are sowing further rifts within the Association of Southeast Asian Nations (ASEAN) after Laos effectively undermined attempts by Thailand to deny ...

Government efforts to scale up solar through IPP tenders have largely failed, with only 142 MW commissioned out of a planned 2,150 MW. Most projects post-2021 remain stalled or canceled.

But even if KK Park were to close, it's just one of around 30 scam compounds along Myanmar's border with Thailand -- one indication that the crackdown may not turn out to be as deep or long-lasting as ...

High-resolution images of the KK Park scam compound, which is located near the Myanmar-Thailand border, show how military forces have razed multiple buildings, leaving piles of ...

When Thailand cut power supplies to Myanmar along their shared western border earlier this year, the move was intended to crack down on online scam centers tied to human trafficking ...

Yet locals report that the Chinese-run scam operations have spread beyond the sealed compounds to rented houses in Myawaddy town, operating openly with generators and solar panels.
