North Macedonia's newly adopted 2026 Annual Plan marks one of the most ambitious renewable-energy roadmaps in the Western Balkans. Beyond the impressive 1.

As a leading provider of energy storage power lithium battery solutions, our systems are specifically adapted for: Balkan climate conditions (-20°C to 45°C operation)

At its core, the Skopje Phase II Energy Storage system isn't just about stacking Tesla Megapacks like LEGO bricks. We're talking about a hybrid setup combining lithium-ion batteries for ...

This project, implemented in North Macedonia, is not only a technical achievement but also a milestone redefining the region's energy future. Our project integrates a 60 MW battery energy storage system ...

The Skopje phase change energy storage project aims to fix this energy storage dilemma through thermal banking technology that's 40% more efficient than lithium-ion batteries.

With increasing renewable energy adoption (think solar farms popping up like mushrooms after rain), the demand for reliable energy storage system distributors in North Macedonia has skyrocketed.

China-based Cubenergy will provide the energy storage systems while YESS Power will manage all engineering, procurement, installation, and commissioning phases. This BESS project ...

This report, "North Macedonia Renewable Energy Market - 2025 Update", has been produced by Invest In Network as part of the Energy Week Western Balkans 2025 framework.

Luxembourg-based Zen Energy Group has started the installation of a hybrid energy project in North Macedonia, combining a solar power plant and a battery energy storage system.

North Macedonia phase change energy storage system supplier

YESS Power, together with China-based Cubenergy and under the investment of Mey Energy, is building a 60 MW battery energy storage system (BESS) that will be fully integrated with ...
