How much is the electric car subsidy in Korea?

The maximum subsidy available for electric passenger vehicles in Korea will be reduced to 5.8 million won (\$3,950) this year, a more than 10 percent decrease from last year, according to the Ministry of Environment.

Do electric cars get corporate discount incentives?

Vehicles priced above 53 million won will not receive corporate discount incentives. If a low-income household purchases an electric vehicle, they will receive an additional 20% of the total subsidies. Young adults (ages 19-34) purchasing their first car as an electric vehicle will also receive an additional 20% in subsidies.

Can you buy an EV in Korea?

If you are 34 or younger and getting an EV as your first car in Korea, you'll be getting a 20 percent additional subsidy, or up to 1.16 million won (\$793) off the payment. All EV owners will be exempt from individual consumption tax and acquisition tax until 2026 and get a discount on highway toll fees until 2027.
