With a deep knowledge on the lead-acid battery manufacturing process, we provide solutions that allow top product quality and high automation.

From the industry leader in data center backup batteries, C& D now offers a configurable cabinet solution. In addition to our premium, reliable stationary batteries, we carry a full line of well ...

Exponential Power's Battery Cabinets & Enclosures provide durable, secure solutions for telecommunications and industrial applications. Designed to protect battery systems, these cabinets ...

We are the world's largest single-site lead-acid battery manufacturer. Explore reliable energy solutions for automotive, industrial, & commercial applications.

We manufacture production lines for lead-acid batteries - for your high quality automotive, industrial and motorcycle battery production, tailor-made in Europe.

The ESS-GRID Cabinet series are outdoor battery cabinets for small-scale commercial and industrial energy storage, with four different capacity options based on different cell compositions, 200kWh, ...

Engineered for use with most type of battery terminal models, these cabinets can fit a wide variety of applications. This solution is completely customizable and flexible to support your application ...

The construction characteristics of the recombination type lead-acid electric accumulators (valve-regulated hermetic accumulators); the absence of acid fumes and the virtual absence of gaseous ...

Complete lead-acid battery production line equipment for automotive and industrial applications. Including grid casting, pasting, curing, formation, and testing equipment. 99.8% yield rate, 40% ...

Off-grid type lead-acid battery cabinet for production line

The solar battery equipment cabinets are made specifically for the solar industry with an aim to make installations safer and easier for consumers. Tailored to fit your specific needs, available in different ...
