Sunstone Solar will have roughly 4 million solar panels capable of producing up to 1,200 megawatts of power -- enough to supply emission-free electricity to about 800,000 homes for a year ...

The U.S. Bureau of Land Management (BLM) this week issued final decisions approving a \$2.3 billion solar + battery storage project in Nevada. Libra Solar is a 700 MW solar and 700 ...

The California Energy Commission (CEC) approved the Darden Clean Energy Project, the first to be fast tracked under its Opt-In Certification program. The CES said that this battery ...

Founded in 2016, Pine Gate is dedicated to the innovative deployment of clean energy and has extensive experience in the development, financing, construction, and operation of solar and energy ...

SACRAMENTO - The California Energy Commission (CEC) on Wednesday approved the Darden Clean Energy Project (DCEP), the first to be permitted under the state's Opt-In ...

Officials as part of their June 11 announcement about the project said the facility once complete will be the largest battery energy storage system in the world.

"California is moving faster than ever before to build the clean energy we need - now with the world's largest solar and battery project," said Governor Gavin Newsom.

The Darden project joins a string of clean energy achievements in California, which added a record 7,000 MW of new capacity in 2024 and has reached 100% clean energy on 91% of ...

The loan guarantee will finance the deployment of up to 1,000 solar photovoltaic (PV) systems and battery energy storage systems (BESS) located primarily at commercial and industrial ...

Photovoltaic energy storage project approved

The largest U.S. solar and energy storage project is approved! Unlock the potential of renewable energy--learn more now!
