The Solmetric Module Lift is designed to help you safely and quickly transport a solar PV module on to a roof. The system uses your existing Werner or Louisville fiberglass extension ladder.

The Fluke Module Lift(TM) is designed to safely and quickly transport a PV module to a roof, streamlining the installation process of solar panels. This innovative tool enables you to lift solar modules to the ...

It takes less than 30 seconds to safely and easily lift solar panels and equipment to a two-story roof. At the end of the day simply tuck your lift into a regular work van, or even a car, where it is ready to set ...

In this video, we demonstrate how to assemble a solar panel lift correctly and safely, from unpacking components to final setup.

Specially designed with a custom carrier that functions as a cargo receptacle, GEDA's solar panel lift is a space-saving way to reach inaccessible loading areas.

GEDA Solarlift is a reliable device on every construction site to transport and assemble solar panels and photovoltaic systems securely. The solarlift also comes with an extra post that supports the ladder ...

Solar panel lifters are indispensable tools for the solar installation industry, promoting safety, efficiency, and cost savings. Whether you opt for a manual lift, electric hoist, or vacuum ...

The Solar Panel Lifter system allows easy installation and manipulation of solar panel modules in field via attachment to a variety of mini-excavators. This system reduces worker fatigue and wind gust ...

Altrex - a Dutch company that produces ladders, scaffolding, and suspended platforms - has developed a new modular lift system for solar panels that can be used in rooftop PV projects.
