7 - Support Column: Depending on required height, the support column may be part of the installed continuous flight helical solar pile or may be an extension added onto the continuous ...

Ensure maximum reliability in your photovoltaic panel installation: choose our specialised screws and bolts, made of stainless and galvanised steel, tested with thousands of solar power systems in Italy ...

Through meticulous research and development and a deep understanding of the market, we are committed to bringing more stable, reliable, and long-lasting fastener products to the ...

The direct fixing anchors are perfect for joining solar panels in a fast, safe and efficient way. Within this category, on the INDEX website, you will find screws with washers and rivets made of resistant ...

High-quality hanger bolts come with EPDM rubber washers that create a durable, watertight seal around the penetration point when compressed. It's absolutely critical to use the ...

For roof-mounted systems, solar panel roof screws or anchors must be installed on structural members, not just sheathing, to ensure maximum hold. We always employ washers to ...

The Sarnafil® Solar Panel Support Anchor is a proprietary attachment product for accommodating photovoltaic panels in Sarnafil® roofing systems. Does not need to be attached to structural steel or ...

ENRGY(TM) Anchor is a lightweight, roof-top integrated, photovoltaic (PV)-mounting solution consisting of a Galvalume®-coated steel plate welded to a stainless steel stud, with a JM membrane flashing ...

ASTM F1554 is a standard material specification for straight, bent, headed, headless anchor bolts and all-thread anchor rods, made of carbon, medium carbon boron, alloy, or high-strength low ...

For PV modules, the racking and mounting system typically consists of the following: a two-railed track that is bolted into the rafters and onto which the panels are clamped, a flashing component for ...
