OverviewSolar potentialHistorySolar photovoltaic powerConcentrated solar power (CSP)Government supportSee alsoFurther readingSolar power includes solar farms as well as local distributed generation, mostly on rooftops and increasingly from community solar arrays. In 2024, utility-scale solar power generated 219.8 terawatt-hours (TWh) in the United States. Total solar generation that year, including estimated small-scale photovoltaic generation, was 303.8 TWh. As of the end of 2024, the United States had 239 gigawatts (GW) of installed photovol...

Find the most frequently occurring last names or surnames in the United States as tabulated from some of the last few Censuses of Population and Housing.

Power generation from solar PV increased by a record 320 TWh in 2023, up by 25% on 2022. Solar PV accounted for 5.4% of total global electricity generation, and it remains the third largest renewable ...

Solar photovoltaic systems Solar photovoltaic (PV) devices, or solar cells, convert sunlight directly into electricity. Small PV cells can power calculators, watches, and other small electronic devices. Larger ...

Discover how solar energy trends are driving the future of clean power.

Solar energy can be harnessed two primary ways: photovoltaics (PVs) are semiconductors that generate electricity directly from sunlight, while solar thermal technologies use sunlight to heat water for ...

Theodor Seuss Geisel--better known as "Dr. Seuss"-- authored some of the most popular and best-selling children"s books ever written.

Explore the diverse types of solar energy technologies, including photovoltaic cells, concentrated solar power, and passive solar design. Learn how these solar energy technologies are ...

Homeschooling is a legal instructional option in all 50 states and national homeschooling rates grew rapidly from 1999 to 2012 but had since remained steady at around 3.3%. However, the ...

Solar energy is used worldwide and is increasingly popular for generating electricity, and heating or desalinating water. Solar power is generated in two main ways: Solar photovoltaic (PV) uses ...

For the first time ever, respondents to the 2020 Census who reported White as a race could write in more details such as Italian, Palestinian or Cajun. Together, the English (46.6 million), ...

This release provides data on over 500 individual languages and language groups spoken across the country during the five-year period from 2017 to 2021.
