Iberdrola hopes to obtain all permits and begin construction on the wind farm in early 2025. The T&#226;mega E&#243;lico facility, at a site near the town of Vila Real in the northwestern district of ...

Portugal solar power hybrid system EDP Renov& #225;veis (EDPR) announced on Thursday the grid connection of its first hybrid project globally and the first in the Iberian Peninsula, in Sabugal, which ...

An important step towards this goal includes exploring the potential for the so-called hybrid renewable power plants through the combination of (existing) wind and solar power parks.

The Portuguese government has initiated a public consultation for a hybrid project that includes a 339.4-MWp solar plant, a 14.4-MW wind farm, and a 310-MW/620-MWh battery energy ...

EDP Renewables, a leading global player in the development of wind and solar projects, has commissioned Portugal's second hybrid park that combines wind and solar energy in the same ...

Portugal's Pracana hybrid plant pairs 90,000 solar panels with hydropower, using the sun and water together to generate 140 GWh of clean and safe energy.

EDP has inaugurated a 39.3 MW hybrid renewable park in southern Portugal, combining wind and solar power to boost clean energy output.

EDP, through EDP Renov&#225;veis, has commissioned Portugal's second hybrid park that combines wind and solar energy in the same location, practically doubling the capacity for renewable electricity ...

EDP's latest hybrid project in Viana do Castelo combines vertical-axis turbines with vanadium redox flow batteries - a configuration that smooths output better than lithium-ion alternatives in 89% of test ...
