What tests does National Grid use?

National Grid uses SHL tests. These assessments are all timed, so it is of vital importance that you practice them beforehand to get used to the timed conditions. Once you have passed the ability tests, you will be required to speak with an interviewer on the phone or computer for 30 minutes, to answer around three questions.

How do you prepare for a National Grid Test?

Go into your National Grid tests with a can-do attitude. Breathe deeply, take it one question at a time, and remember - it's one step towards a brighter, energy-efficient tomorrow, thanks to your efforts and potential. 3 Practice, Practice, Practice! There's no substitute for practice.

Does National Grid use aptitude tests?

National Grid uses aptitude and skills tests as part of their hiring process to assess candidates' abilities in various areas relevant to the role. These might include numerical reasoning, logical thinking, and other job-specific competencies. Are the National Grid tests hard?

Who is Powergrid hiring?
