Which country exports the most solar PV?

The latest solar PV export data from the world's largest exporter, China, by country or region of destination. Data updated on a monthly basis. The IEA has stated that China's solar photovoltaic exports account for 80% of the global market.

What are China's solar PV exports?

In 2021, the value of China's solar PV exports was over USD 30 billion, almost 7% of China's trade surplus over the last five years. In addition, Chinese investments in Malaysia and Viet Nam also made these countries major exporters of PV products, accounting for around 10% and 5% respectively of their trade surpluses since 2017.

How many GW of modules did China Export in December 2024?

China exported 16.63 GW of modules in December 2024, up 9% MoM from 15.2 GW and up 3% YoY from 16.18 GW, according to InfoLink's customs data. China exported 235.93 GW of modules from January to December 2024, up 13% YoY from 207.99 GW.

Which countries import the most solar modules in 2024?

From January to December 2024, China exported 10.57 GW of modules to Spain, down 10% YoY from 11.75 GW, accounting for 11% of the Europe's total, while the Netherlands led with a 40% share. The Asia-Pacific imported 4.56 GW of modules from China in December 2024, down 10% MoM from 5.08 GW and down 30% YoY from 6.56 GW.

In November 2024, authorities reduced export rebate rates for solar wafers, cells and modules to 9% from 13%, effective Dec 1, 2024, signalling a gradual retreat from fiscal support for ...

Export value of solar PV modules worldwide 2024, by country Export value of solar photovoltaic modules worldwide in 2024, by leading country (in million U.S. dollars)

The latest solar PV export data from the world's largest exporter, China, by country or region of destination. Data updated on a monthly basis.

Detailed explanation of the core rules for the export of photovoltaic modules, including HS classification

Pv module export rate

(assembled modules under 8541430000), declaration elements, international FTA ...

The removal of a tax rebate for Chinese PV exports is set to drive up module prices as overseas buyers rush to secure lower-priced products.

Solar PV Global Supply Chains - Analysis and key findings. A report by the International Energy Agency.

China will scrap value-added tax export rebates for PV products from April 1, 2026, while cutting battery rebates ahead of a full phaseout, raising export costs for manufacturers and potentially ...

China eliminates solar export tax rebates effective April 1, 2026. Module prices forecast to rise 10-15%. Get the complete analysis and pricing outlook.

China's solar PV module exports hit 236 GW in 2024, with growth in all regions except Europe ... China exported 16.63 GW of modules in December 2024, up 9% MoM from 15.2 GW and ...

Recently, China's General Administration of Customs released the import and export data of photovoltaic modules in May 2024, which showed that the export amount of components ...
