What is rec active BMS?

We are proud to announce our new product REC Active BMS for 4 cells connected in series with active bi-directional balancing. Long-term development now enables us to present you this excellent device, proven with various real life test conditions, latest technology of electronics components and unbeatable balancing algorithms.

Where can I get information about Rec-BMS?

Page 1 Rozna ulica 20, 6230 Postojna, Slovenia e-mail: info@rec-bms.com; VICTRON CCGX-SUPPORTED ACTIVE BATTERY MANAGEMENT SYSTEM REC ACTIVE BMS Features: robust and small design 4 cells single cell voltage measurement (0.1 - 5.0 V, resolution 1 mV) single cell - under/over voltage protection...

What is rec 2q BMS?

As a single stand-alone unit it is perfect for 12 V systems, where there is a need for replacing lead-acid batteries with lithium battery cells. Stand-alone unit REC 2Q BMS with integrated CAN communication protocol can manage from 4 to 16 cells (in series). It is also compatible with variety of inverters for integrations in PV systems.

What is rec BMS master - slave?

It is also compatible with variety of inverters for integrations in PV systems. REC BMS Master - Slave configuration is suitable for higher voltage systems. In combination with 2Q BMS it allows to connect up to 240 cells. It offers multiple programmable relays and digital outputs.

REC Active BMS This little guy packs a lot of features in a small package. Active balancing, RS485 and CANBus communications, with a PC or WiFi for configuration and monitoring. And right out of the ...

REC Active BMS for 4 cells connected in series with active bi-directional balancing. As a single stand-alone unit it is perfect for 12 V systems, where there is a need for replacing lead-acid batteries with ...

Rec active bms

REC Active 2.9.4 BMS release Notes A separate BIN file for dual bus systems is no longer required, parameter MODE 1 is UV and OV, While MODE 2 is only UV controlled by the MAIN ...

REC Active BMS We are proud to announce our new product REC Active BMS for 4 cells connected in series with active bi-directional balancing. Long-term development now enables us to present you ...

REC Active BMS Features: Li-PO, LiFePO 4, LiFeYPO 4, LiCoO 2, LiMnNiCo and LiMnO 4 Lithium-Ion chemistry up to 3,000 Ah when used with quality matched cells 4 series connected cells per unit high ...

The BMS equalizes cells" voltage by diverting some of the charging current from higher voltage cells to the whole pack or from the whole pack to a lower voltage cells - active balancing. ...

The REC Active BMS Kit includes cables and WiFi module and is designed for 12V systems, providing advanced battery management with 2A active cell balancing. It's compatible with Victron, WS500, ...

REC Active BMS for 4 cells connected in series with active bi-directional balancing.
