How do I contact the county of San Diego's Battery energy storage systems project?

PDS.LongRangePlanning@sdcounty.ca.gov |(858) 505-6677 Learn more about the County of San Diego's Battery Energy Storage Systems Project.

Do Bess projects meet fire safety standards?

The goal was to make sure these projects are safe and follow the necessary guidelines to protect people and property. The consultant study found several important requirements that BESS projects need to follow to meet fire safety standards. Here are the main takeaways:

What are the requirements for a Bess project?

Install Fire Suppression Systems: Each BESS project must include a proper fire suppression system to put out fires if they occur. Keep Safe Distances: BESS projects must be placed at a safe distance from nearby property lines--either 50 feet or 20 feet, depending on the specifics of the project.

How do I contact SDG &E about Bess and microgrid projects?

If you have any questions or concerns about these BESS and microgrid projects, please contact SDG&E's toll-free project number at 1-844-210-5821.

On July 17, 2024, the Board of Supervisors directed staff to create rules for privately initiated Battery Energy Storage System (BESS) projects in the unincorporated area.

Acceptable means of emergency power supply can be determined based on CEC Section 700.12. Stored energy systems are considered ESS and must also meet the requirements of the CFC/these ...

San Diego's Board of Supervisors has unanimously voted to direct officials to establish development standards for siting battery energy storage system (BESS) projects in what are known ...
