Factory-built in the United States, Antora's thermal batteries rapidly soak up the cheapest hours of renewable energy generation to store energy as heat in blocks of solid carbon.

The innovative Kern Solar and Battery Storage Project built by Terra-Gen is providing power for SJCE customers in a unique format: fixed delivery of 62 megawatts (MW) of renewable ...

To qualify, the battery energy storage system shall be certified to the Energy Commission according to Joint Appendix JA12. Please visit the Solar Equipment List webpage for certification instructions, as ...

A robust home energy storage and management system integrating various power sources to provide 24/7 whole-home power backup and intelligently optimizing energy use to eliminate energy bills.

San Jos's Planning Commission approved a conditional use permit (CP24-015 / ER24-139) for a 100 MW battery energy storage facility at 6150 San Ignacio Avenue on an approximately ...

This article explores the plant's location, technical specs, and why it matters for the clean energy transition--perfect for investors, policymakers, and industry professionals seeking actionable insights.

These massive solar plus storage facilities are helping California move away from fossil fuels by delivering solar energy during evening hours and improving grid reliability.

We are happy to announce that our first investment in new renewable energy, an innovative solar plus battery storage project in Kern County, is now producing power. This project was built by developer ...

The innovative Kern Solar and Battery Storage Project built by Terra-Gen is providing power for SJCE customers in a unique format: fixed delivery of 62 megawatts (MW) of renewable energy between ...
