What is a 300 watt solar water pump used for?

300 watt solar water pump with DC controller is used for pool,tank,water feature or fountain. It has 24V working voltage,800 gph max. flow,35m max. head. The water pump stops working automatically when there is no water in the well,and it will automatically restart working 30 minutes later.

What is a 3 inch solar water pump?

3 inch solar water pump with special DC controller can be used for pond, farm, fountain or pool. 1/2 hp solar water pump with low cost can pump 800~1000 gallons per hour. The maximum head is 47~50m. The working voltage of 400W solar water well pump is DC 48 volt. DC controller with LED display can show power, voltage, current and speed values.

What is a 500 watt solar water pump?

500 watt solar water pump with external DC controller has stainless steel impeller/screw, maximum head 45~109m (145~355ft), maximum flow 449~1321 gallons per hour, 3 inch/4 inch inlet diameter and 0.75 inch/1.25 inch outlet diameter. 48V DC solar water motor pump can be used for deep well, small fountain, large pond or water tank.

What is the capacity of solar water pump?

24V DC solar water pump with external DC controller has stainless steel impeller,3 inch inlet diameter,0.75 inch outlet diameter,maximum head 56m (180ft),maximum flow 317 gallons per hour(1200 lph). 120 watt solar well pump can be used for water tank,water gardens,small fountain or pool.

The submersible solar water pump is located underground, but the solar panel is connected to the ground. The submersible pump is used to move water from the well to the surface.

Best price solar water pump with special DC controller has maximum head 35m (115ft), maximum flow 800 gallons per hour, DC 24 volt working voltage, 3 inch inlet diameter and 1.25 inch outlet diameter. ...

Our powerful solar submersible pumps deliver clean water with no energy cost as they solely consume electricity generated by solar panels.

Connera Submersible Solar Pump for Clean Water, 300 Watts, KOLOSAL Series, KOLOS3-35-30-2

Solar water pump 300 watts

Enhance your garden irrigation with our efficient 24V DC 300W whole set solar water pump system. The GS-2DPC series boasts low head, low flow, and low pressure, making it ideal for family farmland or ...

300W DC Submersible Solar Pump - Best-selling solar water pump! Easy installation, no grid needed. Perfect for irrigation, domestic use & remote areas.

We have different models and material solar surface pumps are selling currently, which has plastic (for salty pool or water), cast iron, 304 stainless steel (outdoors).

* If you can not confirm the pump model, please contact us for more details. * We suggest that: 1. you need 400 to 500 watts of solar panels, if the solar water pump is 300 watts. 2. the solar panels are ...

Tuhorse solar water pump kit: includes solar pump, automatic controls, PV Panel, drop wire, water level sensor and more!

Best price solar water pump with special DC controller has maximum head 35m ...

DC Solar submersible pumps are fitted with a permanent magnet, brushless motor, which get the power from the sun, you will never have an electric bill. 3US series solar helical rotor pump can not only be ...
