The VPPA covers Rezolv Energy's planned Bulgarian 229MW St George solar project, which will provide renewable electricity to AGP-Europe's manufacturing plants across the continent.

Through it, the company has become the leading enabler of St. George, a 229 MW solar project which, overall, will deliver an average of 313 Gigawatt hours of renewable electricity annually.

Rezolv Energy, supported by UK investment firm Actis, has secured up to EUR90 million in debt financing for the construction of the 225 MW St. George solar power plant in northeastern Bulgaria.

The deal will provide AGP's European glass manufacturing operations with renewable electricity from the St. George solar photovoltaic (PV) project in Bulgaria from April 2026.

The VPPA involves Rezolv Energy's 229 MW St George Solar Project, located on a former airfield in Silistra, Bulgaria.

St. George will be one of the largest solar projects in Bulgaria once it is operational in the summer of 2025. In a country which has historically relied on fossil fuels for most of its energy needs, ...

Ardagh Glass Packaging-Europe (AGP-Europe) has secured a deal for renewable energy supply to its glass manufacturing operations across Europe from April 2026. It has entered a long ...

Discover the innovative solar park in Bulgaria. Rezolv Energy secures financing for the "St. George" solar park project.

Rezolv Energy has begun construction on the St. George solar facility, a 225 MW park poised to become one of the largest photovoltaic plants in Bulgaria and the wider Balkan region.

Ardagh Glass Packaging-Europe announced that it has entered a long-term Virtual Power Purchase Agreement
