Can a bed face a door?

The bed can't directly face the door. That's not something we're telling you. No, it's one of the basic rules of Feng shui, the ancient Chinese art and science of creating harmonious environments based on understanding our connection to them and how they affect us.

Should a bed face a window?

If your bed faces a door, keep it closed while you sleep. If your bed is in a good position, having the bed face a window is acceptable, provided other layout factors of the home are considered. For bedroom windows, heavy curtains or blinds are recommended to be drawn at night, to contain energy while sleeping.'

Where should a bed be placed?

Your bed should be placed against a full wall and securely attached for safety. Avoid placing the headboard or the head of your bed against or beneath windows to ensure protection. If you must put your bed against or under a window, secure your windows and hang heavy window treatments to block bad chi.
