BEIJING/SINGAPORE, Jan 5 (Reuters) - A boom in battery storage has bolstered the demand outlook for lithium in 2026, driving hopes for an accelerated turnaround for an industry struggling with ...

Erling Haaland, Robert Lewandowski, Lionel Messi, Cristiano Ronaldo, Lamine Yamal feature as FIFA spotlights the records being pursued this year.

A big opportunity for sodium-ion batteries Lithium-ion batteries are the default chemistry used in EVs, personal devices, and even stationary storage systems on the grid today.

He is the latest Dutchman to lead Indonesia's FIFA World Cup(TM) 26 qualifying bid, joining new head coach Kluivert and assistants Alex Pastoor and Denny Landzaat.

Global demand for energy storage is surging. Lithium-ion leads today, but new contenders like sodium-ion, flow, and gravity systems are shaping the future grid.

Scientists have upgraded lithium-ion battery storage using a rust anode that reaches maximum capacity after 300 charge-discharge cycles.

FIFA relives the tournaments which thrilled fans worldwide and celebrates the triumphant teams and players.

Get the latest updates on battery tech, grid-scale storage & green energy - with trusted news, trends & expert commentary

Read the latest research on everything from new longer life batteries and batteries with viruses to a nano-size battery.

A new set of cathode, anode and electrolyte technologies are set to deliver the next generation of batteries.

The latest news on lithium batteries for energy storage

Lithium-ion batteries became the standard across most sectors due to their ...

Lennart Karl has been Bayern Munich's breakout star this season He is the youngest player to score in three consecutive Champions League games A call-up for the senior national team ...

Despite achieving energy densities up to 300 Wh/kg, cycle lives exceeding 2000 cycles, and fast-charging capabilities, lithium-ion batteries face significant challenges, including safety risks, ...
